Education

McGill University
Faculty of Agricultural and Environmental Sciences
Department of Natural Resource Sciences
Montréal, Québec, Canada

Ph.D. Wildlife Biology (2004)

Dissertation: **Spatial Ecology and Conservation of the North American Wood Turtle (*Glyptemys insculpta*) in a Fragmented Agri-Forest Landscape.**

Publications: Saumure, R.A., R.D. Titman, and T.B. Herman. 2007. Effects of haying and agricultural practices on a declining species: the North American Wood Turtle, *Glyptemys insculpta*. *Biological Conservation* 135:581–591. [[PDF](#)]

Saumure, R.A., T.B. Herman, and R.D. Titman. 2010. Effects of patch size and habitat structure on the movements of *Glyptemys insculpta*. *Herpetological Conservation and Biology* 5:403–413. [[PDF](#)]

M.Sc. Wildlife Biology (1997)

Thesis: **Growth, Mutilation, and Age Structure of Two Populations of Wood Turtles (*Clemmys insculpta*) in Southern Québec.**

Publication: Saumure, R.A., and J.R. Bider. 1998. Impact of agricultural development on a population of Wood Turtles (*Clemmys insculpta*) in southern Québec, Canada. *Chelonian Conservation and Biology* 3:37–45. [[PDF](#)]

University of Guelph
College of Biological Science
Department of Integrative Biology
Guelph, Ontario, Canada

B.Sc. Biology (1993)

Raymond A. Saumure, Ph.D.

Professional Experience

**Preserve Biologist &
Head of Research Division**
[The Springs Preserve](#)
Las Vegas Valley Water District
Las Vegas, Nevada, USA
January 2005 to Present

- Participated in the successful opening of the \$250 million Las Vegas Springs Preserve.
- Assisted with acquisition of \$12 million Southern Nevada Public Lands Management Act (SNPLMA) grant. Currently assisting Engineering Division with the drafting and review of plans and request for proposals to add a hiking trail, restore historic railroad cottages, and restore water to the historic Las Vegas Creek.
- Acquisition and quarantine of all Living Collections animals from California and Arizona.
- Initiated, funded, coordinated, and published a multi-agency study on the genetic identity of the extinct Vegas Valley Leopard Frog. Study revealed that the only North American frog believed to have gone extinct in recent history is not extinct!
- Supervised seven staff members including Archaeologist, Registrar, Restoration Ecologist, Senior Zoologist, and three Zoologists. Also responsible for as many as eleven university-level scientific/technical interns and the occasional task-specific docents.
- Reviewed construction and exhibit blueprints for the LEED Platinum Visitor Center, worked through change work orders, and created punch list for Living Collection exhibits.
- Designed (i.e., layout, electrical, plumbing, HVAC, caging) and supervised the construction of a \$250,000 Animal Biosafety Level II quarantine facility.
- Redesigned outdoor lizard pit into three climate-controlled exhibits (\$200,000) and supervised the construction of all animal-related exhibits.
- Obtained grant and worked with NV Energy to install “raptor protectors” on power lines that bisects the Springs Preserve.
- Implemented Environmental Management System with goal of ISO 140001 certification; internal audit recently completed with only the most minor of issues raised. Wrote, reviewed and/or edited hundreds of documents required for certification, such as standard operating procedures and process flow charts.
- Designed a user interface for a Living Collections module for “[KE Emu](#)” archival software used by Research and Curation Divisions.
- Reviewed and copy edited hundreds of static interpretive panel texts for the Visitor Center, Desert Living Center, Desert Demonstration Gardens, and hiking trails.
- Reviewed numerous state-of-the-art educational films, animations and video games.
- Compiled and implemented several habitat restoration plans in concert with Restoration Ecologist and Archaeologist for the Springs Preserve, a National Historic Site.
- Responsible for acquisition, reporting, and renewal of state and federal wildlife permits.
- Drafted job descriptions for and hired a Senior Zoologist, Zoologists, Registrar, and Archaeologist.
- Drafted and managed up to \$1.3 million Research Division annual budget.
- Conducted facility-wide training on the identification, natural history, and best practices when working on a site with Africanized bees, Bark Scorpions, Desert Recluse, Black Widows, etc.
- Coordinated with the Southern Nevada Health District and Las Vegas Animal Control on all public safety issues including monitoring of potential disease vectors (e.g., mosquitoes, feral/invasive species)

Raymond A. Saumure, Ph.D.

Senior Conservation Biologist

Shark Reef at Mandalay Bay

**Mandalay Bay Resort and Casino &
Vancouver Aquarium Marine Science Centre
Las Vegas, Nevada, USA
April 2000 to February 2003**

- Participated in the successful opening of a \$50 million for-profit aquarium managed by the Vancouver Aquarium and Marine Science Center.
- As a senior manager, reported to the Director of Shark Reef and advised him on all animal-related matters.
- Conducted field research on the Western Pond Turtle (*Actinemys marmorata*) with a colleague in Chico, California.
- Developed and published a new technique to capture and transport crocodylians in captivity.
- Advised the Curatorial staff on the biology and husbandry of 17 species of sharks, as well as all reptile species.
- Supervised four Aquarists assigned to the Husbandry Center quarantine facility.
- Designed and implemented an animal inventory database in Microsoft Access.
- Compiled a Procedures and Protocols Manual that encompassed everything from husbandry standards to an emergency response plan.
- Drafted and implemented a dangerous reptile security protocols for potential crocodylian emergencies. Included annual firearms training with .44 magnum bang stick.
- Implemented a PIT tagging program to aid in monitoring the health of all elasmobranchs, moray eels, and reptiles residing at the aquarium; not a typical practice in the aquarium world at the time.
- Successfully managed the Association of Zoos and Aquariums accreditation process, making Shark Reef the only AZA accredited facility in Nevada.
- Donated \$70,000 to worthy projects such as the Nature Conservancy's *in situ* Komodo Dragon research, and satellite tracking of Green Sea Turtles (*Chelonia mydas*) by the Caribbean Conservation Corporation.
- Managed a \$240,000 research budget.
- Simultaneously began drafting of Ph.D. dissertation.

Animal Health Technician

Biodôme de Montréal

**City of Montréal
December 1997 to April 2000**

- Responsible for the husbandry of a collection of approximately 30 species of amphibians and reptiles, 13 species of mammals, and 40 species of birds residing in one of five mesocosms (i.e., Tropical Rainforest, Laurentian Forest, St. Lawrence Marine Ecosystem, North Pole, and South Pole).
- Designed and conducted a study on the population ecology of Giant Toads (*Bufo marinus*) inhabiting the Tropical Rainforest mesocosm.
- Produced a dichotomous turtle eggshells key for Québec freshwater turtles.
- Simultaneously completed the field research portion of my Ph.D. at McGill University.

Raymond A. Saumure, Ph.D.

Educator

Biodôme de Montréal

City of Montréal

October 1993 to December 1997

- Used novel educational methods to engage and entertain the public, while explaining complex ecological processes within five large-scale mesocosms.
- Developed superior educational abilities while teaching 8 hours / day for four years.
- Worked with all age groups in settings ranging from impromptu discussions and classroom presentations to guided VIP and technical tours of the facility.
- Simultaneously pursued and completed my M.Sc. at McGill University.

Technician

Ontario Ministry of Natural Resources

Southern Region, Aylmer District Office

April to August 1992

- Set up & monitored amphibian transects during the pilot year of amphibian monitoring in Canada.
- Coordinated the project and five students during supervisor's paternity leave.
- Initiated an independent mark-recapture study of five species of freshwater turtles on Lake Erie.

Visitor Services Coordinator

Carillon Provincial Park

Ontario Ministry of Natural Resources

April to September 1991

- Supervised two employees and administered the entire summer education program, which included everything from scheduling to press releases.
- Gave daily bilingual presentations on animal ecology, biodiversity, and conservation; These included guided walking and canoe hikes, as well as amphitheatre presentations.

Relict Leopard Frog Conservation Team (2007 – Present)
Québec Multi-Species Turtle Recovery Plan Committee (2003 – 2005)
2008 Joint Meetings of Ichthyologists & Herpetologist Local Organizing Committee (2004 – 2008)

Research Projects

Project Title: Southern Nevada Public Lands Management Act – Exploration Trail & Historic Cottages
Grant: \$12,000,000
Years: 2005 – 2013
Funding Agency: Bureau of Land Management

Project Title: Springs Preserve Raptor Protector project.
Grant: \$7,500
Years: 2007 – 2009
Funding Agencies: Nevada Community Foundation; NV Energy – *gratis* installation

Project Title: Infrared camera traps for mammal surveys
Grant: \$15,000
Years: 2006 – 2007
Funding Agency: Nevada Community Foundation

Project Title: Impact of agricultural development on the Wood Turtle (*Glyptemys insculpta*).
Grants: \$54,000
Years: 1998 – 2000
Funding Agencies: Fondation de la Faune du Québec, Société des Amis du Biodôme de Montréal, and Ministère de l'Environnement et de la faune du Québec

Project Title: Wood Turtle (*Clemmys insculpta*) status report for the Province of Québec.
Grants: \$1,000
Year: 1998
Funding Agencies: Parks Canada and Ministère de l'Environnement et de la faune du Québec

Project Title: Dichotomous key to the eggs and eggshell fragments of the freshwater turtles of Québec.
Grants: \$15,000
Years: 1998 – 1999
Funding Agencies: Biodôme de Montréal, Société des Amis du Biodôme de Montréal, and Ministère de l'Environnement et de la faune du Québec

Raymond A. Saumure, Ph.D.

Project Title: Population ecology of Giant Toads (*Bufo marinus*) inhabiting a Tropical Rainforest mesocosm.

Grant: \$800

Years: 1997 – 1999

Funding Agency: Université du Québec à Montréal

Project Title: Comparative study of *Clemmys insculpta* populations in agricultural and forest habitats.

Grants: \$16,000

Years: 1994 – 1995

Funding Agencies: Ministère de l'Environnement et de la faune du Québec and St. Lawrence Valley Natural History Society

Project Title: Correlations between growth, body size, and survivorship of repatriated *Clemmys insculpta*.

Grant: \$1,500

Years: 1994 – 1998

Funding Agency: Biodôme de Montréal

Project Title: Survey of the Ottawa River for the Threatened Eastern Spiny Softshell Turtle, *Apalone spinifera*.

Grants: \$15,000

Year: 1993

Funding Agencies: World Wildlife Fund and Ministère de l'Environnement et de la faune du Québec

Project Title: Mark-recapture study of four species of freshwater turtles in the Big Creek National Wildlife Area, Long Point, Ontario, Canada.

Grants: \$15,000

Year: 1993

Funding Agencies: World Wildlife Fund, Canadian Wildlife Service, Ontario Ministry of Natural Resources, and St. Lawrence Valley Natural History Society

Volunteer Experience

Research Associate

Herpetology Department

[National Museum of Canada](#)

1983 – 1987

- Volunteered one half day per week in the Herpetology Department while attending high school.
- Husbandry of a large collection of Canadian amphibians and reptiles.
- Began an independent mark-recapture study of four freshwater turtle species in Ontario; the data are now considered “historical data.”

Raymond A. Saumure, Ph.D.
